|-------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------|
| Measuring Range | 0.01-1000 NTU |
| Calibration | Automatic 4-point calibration |
| Response time | 6 seconds |
| Sample Volume | 15 ml |
| Weight | 2.7 kg (6 lb) in case w/accessories |
| Dimensions (L x W x D) | 222 mm x 95 mm x 79 mm |
| Display | LCD |
| Accuracy | ±2% of reading or ±1 least significant digit from 0-500 NTU ±3% of reading between 500-1000 NTU |
| <p><i>*NTU = NEPHELOMETRIC TURBIDITY UNITS, which is the measuring unit of the clarity of liquid depending on the amount of suspended matter.</i></p> | |
